How To Find Software Serial Number 2020.x.x.x Download.The present invention relates to methods for removing particulates from a gas stream and, in particular, to methods for removing particulates from exhaust gas streams. Conventional particulate filters are generally activated carbon based and are used for removing particulates from exhaust gas streams, for example, those containing unburned hydrocarbons. Activated carbon based filters can collect particulates and toxic metals, including, for example, nickel, vanadium, copper, lead, and cadmium. Over time, an activated carbon based filter can become clogged, and thus the filter needs to be regenerated or replaced. The regeneration process typically involves burning off
